Digital cardiovascular care company tenacio wins international award as "Most Innovative AI Based Digital Health Start-Up 2021"

Press release – Berlin/New York, 07 Feb 2022

- tenacio has been awarded as the "Most Innovative Al Based Digital Health Start- Up 2021"
- The international award by the Corporate Vision Magazine recognizes tenacio's patient management platform for its innovation and dedication to improve cardiovascular health

tenacio, whose mission is to improve clinical outcomes for cardiovascular patients and reduce healthcare costs through translating peer reviewed research evidence into real world practice, has been awarded as the "Most Innovative AI Based Digital Health Start- Up 2021".

tenacio has developed a digital healthcare solution to address cardiovascular morbidity and mortality through precision medicine and curated treatment recommendations for patients with atrial fibrillation as its first indication. Further product development will include the addition of new clinical indications like heart failure and coronary artery disease. The proprietary development will also include AI and machine learning technologies to predict outcomes events and optimize treatment.

The international award recognizes the innovation of tenacio's patient management platform which results in better outcomes for patients and lower cost for health care systems. tenacio's co-founder and CEO Dr. Georg van Husen commented: "We are deeply honored by being awarded as the most innovative AI based digital health start-up. We are proud to see our solution being recognized as an innovative and important tool in managing patients with cardiovascular diseases."

About tenacio
